

Ian MacWilliams

Ian MacWilliams is the producer of the a Mildura based history project Frames of History, where film and video tape from Sunraysia's past is being collected, restored and published. With more than 50 years media experience, Ian commenced his career at Mildura's STV8 before moving to Melbourne and has since gained a broad understanding of all facets of television and sound production.

For a large part of his career, Ian managed Labsonics, one of Australia's top Audio-Post Studios, creating sound tracks for film and television such as The Castle, Halifax, Offspring, Miss Fisher's Murder Mysteries and Rockwiz. These days alongside Frames of History, Ian continues producing audio and video content for a wide range of commercial clients from his own studios in Melbourne.

Frank Jenner's hobby had always been photography and he spent his life capturing movie film. After laying in suitcases for years, in 2019 the first reels of 16mm colour film shot by Frank were digitised by Frames of History, bringing to life many aspects of life in Sunraysia from the 1930's to the 1960's. Selected Frank Jenner movie clips on a wide variety of topics will be the focus in a colourful and information packed presentation by Ian MacWilliams as part of the Mildura Day celebrations on May 31.
